

Warehouse Manager

We are looking for an experienced manager to take control of our Warehouse. The successful applicant will be required to develop a truly first class stock control system, ensuring tight control is maintained over goods in, delivery of stock to the shop floor, collection and dispatch of completed product.

You will need to lead from the front, in developing your team of warehouse operatives to fully commit to a fast paced, lean and multiskilled environment.

We are an ISO 9001 and 14001 accredited company, and will require you to ensure the set standards are maintained within your department.

Previous experience of change management would be a distinct advantage, as would 5s and Kaizen.

Hours of work will be 08.30 to 17.00 Monday to Friday, but these hours need to be flexible to respond to specific demands, including weekends if needed.

We work a two-shift pattern 07.00 to 15.00 and 15.00 to 23.00, Monday to Friday. Salary will be dependent upon experience.
